

Invited Session for KES2009

**13th International Conference on
Knowledge-Based and Intelligent Information & Engineering Systems**

held on September 28, 29 & 30, 2009
at Santiago, Chile

“Intelligent Technology Approach to Management Engineering”

organized by

Junzo Watada, PhD (Waseda University),
Huey-Ming Lee, PhD (Chinese Culture University),
Taki Kanda, PhD (Bunri University of Hospitality), and
Lily Lin, PhD (China University of Technology)

1) The scope:

Intelligent technologies are widely employed in management engineering. The methodology includes artificial intelligent, neural network, fuzzy set based technology, and genetic algorithms, evolutionary computing, particle swarm optimization, chaos approaches and so on. Most concepts of intelligent technologies came out in 1960s and 1970s and it was burst into application fields in 1980s. Today the intelligent technology plays a pivotal role in modern engineering and contributes to solve problems in Management Engineering not only of human related ones but also of mathematical ones. This organized and invited sessions focus on the advanced methodologies of intelligent methods which are employed in management engineering.

2) Related fields:

Systems design, engineering, production, management, economics, policy making, decision making, real options analysis, Kansei engineering, ergonomics, project management, MOT, R&D and so on.

3) Time Schedule:

Submission of a full paper: March 1, 2009
Notification of acceptance: April 1, 2009
Submission of the camera-ready paper: April 20, 2009

(Session organizers have to send the bundle of camera-ready papers to KES Secretariat till May 1, 2009, or the papers will not appear in the proceedings, all members have to pay their registration fee till May 1, 2008 as well.)

4) Submission:

Can we remind you that all Invited Session papers for KES 2009 must follow the instructions at <http://kes2009.kesinternational.org/submission.php>

and be submitted through the PROSE review software (**Address will be publicized soon**)

This is:

1. To enable us to see the results of the review process as requested by Springer.

2. To enable us to collect the files to be sent to the publisher to produce the proceedings.

Note: We cannot send the files to Springer if they have not passed through PROSE and so papers that are not submitted through PROSE cannot appear in the proceedings.

Papers to appear in the KES 2009 proceedings must have their publication files and copyright forms uploaded

onto PROSE by May 1, 2009.

For guidance on the use of PROSE please see <http://www.prosemanager.co.uk/tutorial1.htm>

5) The number of papers gathered: 6 to 12.

6) Contact Address:

- 1) Junzo Watada,
Ph.D, Professor
Graduate School of Information,
Production and Systems (IPS)
Waseda University
2-7 Hibikino, Wakamatsuku,
Kitakyushu, Fukuoka 808-0135
Phone+Fax: (+81)93-692-5179
Mobile: (+81)90-3464-4929
Email: watada@waseda.jp
- 2) Huey-Ming Lee,
Ph.D, Professor
Department of Information Management
Chinese Culture University
55, Hwa-Kung Road, Yang-Ming-San
Taipei (11114), TAIWAN
Tel: (886)-937-893-845
Fax: (886)-2-2777-4723
Email: hmllee@faculty.pccu.edu.tw
- 3) Taki Kanda
Dr. in Economics, Associate Professor,
Bunri University of Hospitality
311-1 Kashiwabarashinden Shimogawara,
Sayama-city, Saitama-pref.(350-1336), Japan
Tel: +81-4-2952-9871
Fax:+81-4-2924-7016
E-mail: kanda@bunri-c.ac.jp
Mobile: 090-2742-6221
- 4) Lily Lin
PhD, Associate Professor,
China University of Technology
Taipei (11114), TAIWAN
Tel: (886)-2-2931-3416 **Ext. 2242**
Fax: (886)-2-2358-1815
Email:lily@cute.edu.tw
